Introduction to the spot

Flisvos Sport Club is situated on the island of Naxos in the Greek Cyclades. The location, St George's Bay, is a short walk from Chora, the island's main city and port. Flisvos Sport Club includes the Seaside Studios and apartments, the Flisvos Beach Café and Restaurant, the Windsurf and Catamaran Center, the Premium Windsurf and Bike center with Shop and the Road Shop in town, all managed by one team.

The island of Naxos has been voted as one of the most beautiful islands in the world by Trip Advisor's Traveller's Choice. Being the biggest of the Cyclades Islands, situated in the heart of the Aegean Sea, Naxos has so much to offer that, no matter how long you stay, you will still have things that remain undiscovered: secluded beaches, a vibrant night life, hidden mountain villages, ancient temples, castles and a local production of vegetables, cheeses, meat and fish that will leave you speechless. The diversity this island has to offer, allows you to choose between having an active or relaxing holiday. All that and a lot more is the reason why people from all over the world keep coming back to Naxos after their first visit. So be careful; this island is addictive.

Windsurfing

The Laguna, where the Flisvos Laguna Surf centre is located, offers you a unique diverse spot with a wind protected lesson area, a flat water freestyle area and a wave spot, making this spot perfect for every level. There is even the possibility to upgrade to the Premium Center to try a different wave spot with full carbon material.

The Laguna is a small bay, ideal for windsurfing. Inside the bay the water is shallow with a wide standing area and most of the times flat water conditions; a perfect windsurfing playground for beginners and freestylers. The reef that protects the laguna from the waves has a 7m opening from where you can exit to the open sea. There, the wave spot gives the opportunity to more advanced windsurfers to wave ride. The station is equipped with the latest RRD boards, SUP boards, two tandem windsurf boards, two hydrofoil boards, Pryde sails with RDM mast and XF booms, RRD school sails, the best beginner gear and special equipment for children. Laguna offers equipment rental as well as lessons for all levels, in various languages, either in a group or private. With our VDWS instructors, you can already get your windsurfing license after a 3 day course. The station offers unique teaching techniques such as the use of the tandem boards or the use of our latest intracom system that allows real time interaction between student and instructor through a helmet equipped with microphone and headphone, to cover long distance.

The Laguna Center is open from 10:00 to 19:00 in high season and from 10:00 to 18:00 in low season (Premium and Bike center is open from 09:00). The wind comes mainly from the North, side onshore from the right. This north wind direction is traditionally called the Meltemi, it starts from May until October, usually from the morning until sunset. For lower wind conditions, the center offers complimentary alternative activities to its boarder package customers. These activities include a motorboat and snorkeling tour to a ship wreck, SUP tours, SUP yoga and work out sessions, low wind free style lessons, beach volley tournaments, SUP Polo, SubWing and many more. In the station you can find a chill-out area, shadow spots, changing rooms and a shower.

At a 5 minute walk from the laguna, about 400m along the beach, you will find the Flisvos Premium Surf Center. Here you start directly into the wave spot in front of the Beach Café, with waves between 1 and 1,5m breaking on offshore reefs. You have access to our high-end premium equipment: 20 RRD LTD boards and 30 RRD Rigs with 100% carbon mast and boom. In our Premium Center you can also rent SUP boards, surf boards, body boards and skim boards. Wave surfing is possible in St. George bay often just before sunset.
